

## The Letter from Dr. Vijaykumar D (stay 21<sup>st</sup> May 2023r ~ 09<sup>th</sup> June 2023)

**\* What is your field belonging and research area?**

My area of interest is Ankle Foot Surgery and Knee Surgery.

**\* Why did you choose our University or Hospital?**

Japanese culture and traditions are are very intriguing to me. I want to gain firsthand experience from healthcare facility from Japanese University and Nara Medical University fits to my ambition hence I chose it.

**\* How did you find our university of Hospital?**

I found Nara Medical University through Google search and Website.

**\* How is your working circumstances?**

I had an excellent clinical exposure as per International Standard with highly qualified and skilled Professors at Nara Medical University. I got to see Knee Surgery and Ankle Foot surgery and use of latest technology in this field including robotic surgeries. All the doctors, Residents and Medical Students were helpful and kind to ask me if I need any kind of help.

I also had an opportunity to observe Total Talar and Total Ankle replacement surgeries and I got to know that these are developed by the university professors.

Non-Medical staff including secretary were very helpful and caring starting from reception area.

**\* How is your private life here?**

**\* have you been staying at our Guest House? Yes ·  
No**

I have been living in the Guest House and spend wonderful old area at Imai Cho. The whole area is full of traditional houses. The Guest house room was very spacious including the all the amenities necessary for daily life. It is very conveniently placed near to the university made my stay comfortable.

**\* What is the impression of Japan, Nara Pref.?**

I had heard a lot about the Nara Prefecture before coming to Japan. The place was amazing with deep rooted traditional culture surrounded by Kyoto and Osaka. It is well connected to the rest of Japan where you can easily travel in any part of the Japan. There are lot of parks, shrine and many attraction places with amazing weather and mountains makes the pleasant weather condition.

I must say people very friendly and helpful makes the city a very safe and happy place.

**\* Please give a message for the coming Doctors or Researchers in future !!**

It's a great place and Best university for any international exposure with all the incorporation latest technology. The Professors and staffs are very supportive and can have excellent discussion in the field of Fellow's interest. One can see all the sub-specialized fields are very well developed with great expertise to care of the patients. I strongly recommend the university for any Orthopaedic fellow wants to visit.
